To: Mr. Constantine Sidamon-Eristoff
Chairman of
"American Friends of Georgia"

Dear Mr. Sidamon-Eristoff,

On behalf of National Cancer Center I'd like to thank you for humanitarian activities of "American Friends of Georgia" at Children's Department. "American Friends of Georgia" has significantly contributed in rehabilitation of the Department starting from 2002. I'm also very thankful to your close relative and one of the famous representative of Georgian oncology – Prof. Gulnara Gersamia, who made it possible to present the Children's Department problems to you and to Executive Director – Mrs. Marusya Chavchavadze during your visit in Tbilisi.

We highly appreciate, that the most part of the Children's Department (hall, electrical supply, bathroom, dining room and all the rooms) are renovated due to your help. The conducted works have significantly improved the living conditions for our little patients.

Considering your contribution you have been elected as Honorary Member of National Cancer Center and Georgian Oncologists Society (Diploma is accompanying this letter).

I hope that the "American Friends of Georgia" will continue the humanitarian activities at National Cancer Center, which needs so much the assistance from our American friends.

Sincerely,

Prof. R. Gagua
NCC, President
