Marusya Chavchavadze
Executive Director
American Friends of Georgia
P.O. Box 1200
Truro, MA 02666

October 2, 2004

Dear Marusya,

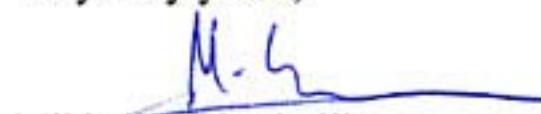

I want to offer my praise for the work of your non-profit charitable organization, American Friends of Georgia.

AFG's work in Georgia over the past ten years has brought humanitarian relief to many of our most vulnerable citizens – orphaned, homeless and handicapped children as well as sick and impoverished elderly. During this time, you established a mutual trust and understanding with Georgians you have worked with who are setting up innovative care-giving programs.

AFG's projects are known throughout Georgia for their honesty and integrity. They have provided the first steps toward educating and training our needy children.

My government is working hard to restore the economy and upgrade social services in Georgia. We will continue to cooperate with AFG in fostering essential health and social services. I thank you and all American friends for the care you have shown for the future of Georgia.

Very truly yours,

Mikheil Saakashvili
